### Summary of Qualifications

I have 2+ years of experience in IT Department. During this time I have been involved in project Gil 3.5 Deployment, C# and PHP projects. I have experience in developing client/server, multithreading applications for Desktop and Web platforms. I have experience in writing native & hybrid applications for both platforms. Knowledge of OOP and good understanding of OOD, refactoring concepts. I am reliable, result-driven, pro-active person with excellent interpersonal skills. Good teamplayer. Have strong analytical skills. My responsibilities on recent projects are the following: system design and architecture - 20%, coding – 60%, testing - 20%. I am looking for a new team career growth.
